B. PROFIT AND LOSS PROSPECTS:

Market Expectations	The Performance note is a Security for Investors who expect the relevant Underlying to trade sideways or slightly higher during the product’s lifetime.
Characteristics	Please see Product Description above.
Maximum Profit / Maximum Loss at Maturity	The potential profit of the Performance note is limited to 0.422% of the notional initially invested. The maximum loss of the Performance note for the investor is limited to the Level of the Capital Protection, should no Credit Event affects the Issuer.

C. SIGNIFICANT RISKS FOR INVESTORS:

Risk Factors

Potential investors are urged to consult with their legal, regulatory, investment, accounting, tax and other advisors with regard to any proposed or actual investment in the Notes and to review the Offering Circular.

Please see the Offering Circular together with the Pricing Supplement for a full detailed description of the Notes and in particular, please review the Risk Factors associated with these Notes. Investing in the Notes entails certain risks including, but not limited to, the following:

Capital protection at maturity: Capital protection is provided at maturity only. If the Notes are sold prior to maturity, or redeemed by the Issuer for reasons stated in the Offering Circular, this document and the Pricing Supplement or if there is a change in tax law), the proceeds may be less than the initial investment.

Adjustments by the Determination Agent: The terms and conditions of the Notes will allow the Determination Agent to make

This is not an offer (or solicitation of an offer) to buy or sell the product. The product may not be offered, sold, transferred or delivered directly or indirectly in the United States to, or for the account or benefit of, any U.S. Person (as defined in Regulation S under the Securities Act). Please refer to the important information at the end of this term sheet. © Copyright 2024 Morgan Stanley.

adjustments or take any other appropriate action if circumstances occur where the Notes or any exchanges are affected by market disruption, adjustment events or circumstances affecting normal activities. These circumstances include the Nationalisation, Delisting, Insolvency or a Takeover or Merger of the share issuers of the Underlying(s) as applicable.

In addition, other circumstances may occur which either increase the liability of the Issuer fulfilling its obligations under the Notes or increase the liability of any hedging activities related to such obligations, including without limitation the adoption of or any change in any tax law relating to a common system of financial transaction tax in the European Union or otherwise.

In such circumstances, the Determination Agent can in its sole and absolute discretion determine whether to redeem the Notes early, or adjust the terms of the Notes, which may include without limitation adjustments to the Initial Reference Price, the Final Redemption Amount or the Underlying. The Determination Agent is not required but has the discretion to make adjustments with respect to each and every corporate action. Potential investors should see the Offering Circular for a detailed description of potential adjustment events and adjustments.

Exit Risk: Any secondary market price of the Notes will depend on many factors, including the value and volatility of the Underlying(s), interest rates, the dividend rate on the stocks that compose the Underlying (if any), time remaining to maturity and the creditworthiness of the Issuer and the Guarantor. The secondary market price may be lower than the market value of the issued Notes as at the Issue Date to take into account amounts paid to distributors and other intermediaries relating to the issue and sale of the Notes as well as amounts relating to the hedging of the Issuer's obligations. As a result of all of these factors, the holder may receive an amount in the secondary market which may be less than the then intrinsic market value of the Security and which may also be less than the amount the holder would have received had the holder held the Security through to maturity.

Credit Risk: Investors are exposed to the credit risk of the Issuer and/or Guarantor. The Notes are essentially a loan to the Issuer with a repayment amount linked to the performance of the Underlying that the Issuer promises to pay at maturity and that the Guarantor promises to pay if the Issuer fails to do so. There is the risk, however, that the Issuer and the Guarantor may not be able to fulfil their obligations, irrespective of whether the Notes are referred to as capital or principal protected. Investors may lose all or part of their investment if the Issuer and the Guarantor are unable to pay the coupons (if any) or the redemption amount. No assets of the Issuer and/or Guarantor are segregated and specifically set aside in order to pay the holders of the Notes in the event of liquidation of the Issuer and/or Guarantor, and the holders of the Notes will rank behind secured or preferred creditors.

Liquidity Risk: Any secondary market in the Notes made by the Dealer or its affiliates will be made on a reasonable efforts basis only and subject to market conditions, law, regulation and internal policy. Even whilst there may be a secondary market in the Notes it may not be liquid enough to facilitate a sale by the holders.

Product Market Risk: The value of the Notes and the returns available under the terms of the Notes will be influenced and dependent on the value of the Underlying. It is impossible to predict how the level of the Underlying will vary over time. The historical performance (if any) of the Underlying is not indicative of its future performance.

Hedging Risk: On or prior to and after the Trade Date, the Issuer, through its affiliates or others, will likely hedge its anticipated exposure under the Notes by taking positions in the Underlying, in option contracts on the Underlying or positions in any other available securities or instruments. In addition, the Issuer and its affiliates trade the Underlying as part of their general businesses.

Potential Conflict of Interest: The Determination Agent, which is an affiliate of the Issuer, will determine the payout to the investor at maturity. Morgan Stanley & Co. International plc and its affiliates may trade the Underlying on a regular basis as part of its general broker-dealer business and may also carry out hedging activities in relation to the Notes. Any of these activities could influence the Determination Agent's determination of adjustments made to any Notes and any such trading activity could potentially affect the price of the Underlying and, accordingly, could affect the investor's payout on any Note.

D. Selling Restrictions

No public offer or subsequent distribution of the Notes in any Member State of the European Economic Area or the United Kingdom is permitted.

This term sheet may not be used for the purpose of any offer or solicitation by anyone in any jurisdiction in which that offer or solicitation is not authorized or to any person to whom it is unlawful to make such an offer or solicitation. No offer of the Notes to the public may be made, except in circumstances which do not result in any breach of Regulation (EU) 2017/1129 (the "Prospectus Regulation") by the Issuer, the Dealer and their respective affiliates and for this purpose an offer shall not be treated as not requiring the publication of a prospectus pursuant to Article 3 of the Prospectus Regulation solely by virtue of the application of Article 1(4)(b) (offer to fewer than 150 persons).

The Notes have not been and will not be registered under the U.S. Notes Act of 1933, as amended, or the securities laws of any

This is not an offer (or solicitation of an offer) to buy or sell the product. State in the United States, and are subject to U.S. tax requirements. The Notes may not be offered, sold or delivered at any time, directly or indirectly, within the United States (which term includes the territories, the possessions and all other areas subject to the jurisdiction of the United States of America) or to or for the account of a U.S. Person (as defined in Regulation S under the Notes Act of 1933, as amended). In purchasing the Notes, you represent and warrant that you are neither located in the United States nor a U.S. Person and that you are not purchasing for the account or benefit of any such person.

Swiss Offer Restrictions

This document is not intended to constitute an offer or solicitation to purchase or invest in the Notes. The Notes may not be publicly offered, directly or indirectly, in Switzerland within the meaning of the Swiss Financial Services Act ("**FinSA**") and no application has or will be made to admit the Notes to trading on any trading venue (exchange or multilateral trading facility) in Switzerland. Neither this document nor any other offering or marketing material relating to the Notes constitutes a prospectus pursuant to the FinSA, and neither this document nor any other offering or marketing material relating to the Notes may be publicly distributed or otherwise made publicly available in Switzerland. Accordingly, the Notes may not be offered to the public in or from Switzerland, but only to a selected and limited circle of investors, who do not subscribe to the Notes with a view to distribution. The investors will be individually approached by the dealer from time to time. This document is personal to each offeree and does not constitute an offer to any person. This document may only be used by those persons to whom it has been handed out in connection with the offer described herein and may neither directly nor indirectly be distributed or made available to other persons without express consent of the dealer. It may not be used in connection with any other offer and shall in particular not be copied and/or distributed to the public in Switzerland.

The Notes may only be offered in Switzerland pursuant to and in accordance with an exemption from the prospectus requirement listed in Article 36 para. 1 FinSA or where such offer does not qualify as an offer to the public in Switzerland and in compliance with all other applicable laws and regulations.

The Offering Circular and Pricing Supplement prepared by the Issuer or any of its affiliates in connection with the Notes shall not constitute a valid prospectus pursuant to Directive 2003/71/EC (as amended). Neither the Issuer nor any of its affiliates consent to, the use of the Offering Circular and the Pricing Supplement in connection with any on-selling of the Notes and each of the Issuer and its affiliates disclaims any liability in such circumstances.

Prohibition of Sales to EEA Retail Investors

If the Pricing Supplement in respect of the Notes includes a legend entitled "Prohibition of Sales to EEA Retail Investors", the Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the EEA. For these purposes, a retail investor in the EEA means a person who is one (or more) of:

- (A) a retail client as defined in point (11) of Article 4(1) of MiFID II, as amended;
- (B) a customer within the meaning of Directive (EU) 2016/97, where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or
- (C) not a qualified investor as defined in the Prospectus Regulation.

Consequently, if the Pricing Supplement in respect of the Notes includes a legend entitled "Prohibition of Sales to EEA Retail Investors", no key information document required by Regulation (EU) No 1286/2014, as amended (the "PRIIPs Regulation") for offering or selling the Notes or otherwise making them available to retail investors in the EEA has been or will be prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIIPs Regulation.

MiFID 2 Product Governance requirements

Unless otherwise agreed in a separate distribution agreement, Morgan Stanley & Co International plc (for the purposes of this section, the "**Manufacturer**") (solely or, together with an affiliate) and the distributor of the Notes (the "**Distributor**") agree and undertake as follows:

The Manufacturer (directly or, when the product is sold via an affiliate, in conjunction with such affiliate) will identify the potential target market of end investors for the Notes by specifying the type(s) of client for whose needs, characteristics and objectives the Notes could, based on its theoretical knowledge of and past experience with the Notes or similar Notes, be compatible (the "**Potential Target Market**"). The Potential Target Market will also include, where appropriate, information on any group(s) of investors for whose needs, characteristics and objectives the Notes are not compatible. The Potential Target Market will be communicated to the Distributor by the Manufacturer (directly or, when the product is sold via an affiliate, by such affiliate), as agreed on a trade-by-trade basis.

This is not an offer (or solicitation of an offer) to buy or sell the product. The product may not be offered, sold, transferred or delivered directly or indirectly in the United States to, or for the account or benefit of, any U.S. Person (as defined in Regulation S under the Securities Act). Please refer to the important information at the end of this term sheet. © Copyright 2024 Morgan Stanley.

The Distributor will, taking into account the Potential Target Market, identify a specific target market for the Notes (the “**Specific Target Market**”) and ensure that the Notes that it intends to offer or recommend are compatible with the needs, characteristics and objectives of such Specific Target Market. The Specific Target Market will also include, where appropriate, information on any group(s) of investors for whose needs, characteristics and objectives the Notes are not compatible.

The Distributor will:

- ensure that the Notes are promoted, marketed and/or distributed to and through channels that are compatible with the Specific Target Market;
